

CABINET SET FOAM COMPLETE

Description

Created for high risk situation, such as refineries warehouses and big stores.

It has the same characteristics of mobile unit, in a fixed form.

the complete foam cabinet is mounted in affixed position, on a wall, and allows rapid and quick use.

the system is composed by:

- #1 foam mixer, normally set to operate sucking 3% of foam at 5 bar,
- #1 Ø 45mm high quality hose,
- # 2 25 kg foam tanks,
- # 2 branch pipes, low exp and medium expansion.

Plus a three effects nozzle. (note: 3 effect nozzle can be used only without foam, other wire suction percentage cannot be granted). Endurance of the two foam tanks is around 8 minutes.

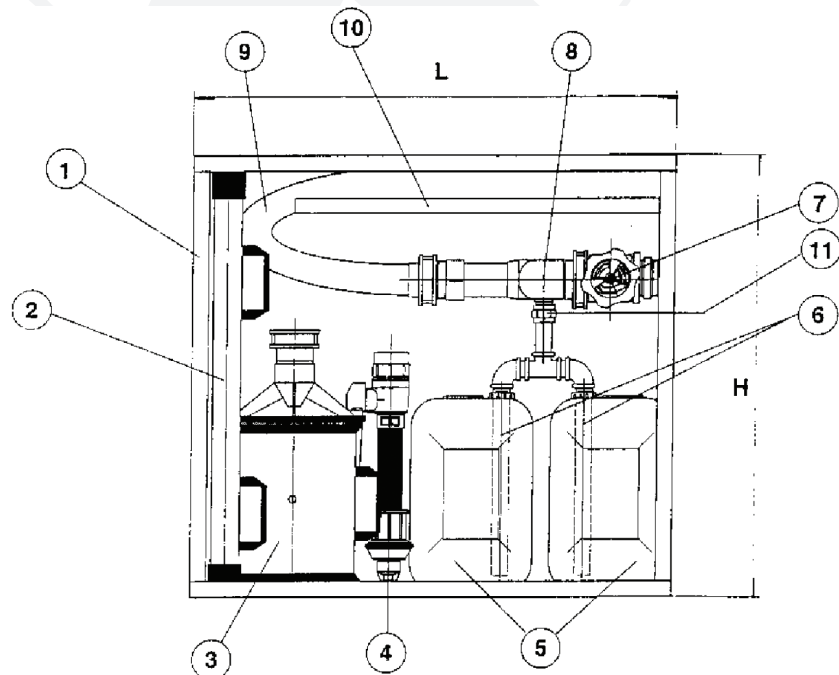

Technical features

Height (H) ~ 980 mm
Width(L) ~ 1100 mm
Depth ~ 300 mm
weight ~ 77kg

Autonomy 8' 33"

Water Unlimited
